Luxury interiors and architecture, shaped around the people who live in them.

Founded in 2008, DValley is a luxury design practice working across interior design, design, architecture, bespoke kitchens and furniture, architectural lighting and smart and smart home integration.

From studios in London and Cairo, our architects, designers, engineers and project managers take every project from first sketch to final styling — with one team accountable throughout.

AT A GLANCE

Eighteen years of designing spaces that inspire and endure.

2008

Year founded

18

Years of practice

2

Studios — London and Cairo

24

Months workmanship warranty,
warranty, up to

Hundreds of completed projects across luxury residential, hospitality, retail and commercial developments.

From boutique studio to two-city practice

2008

The Beginning

Founded as a boutique boutique interior design studio.

2012

Wider Expertise

Smart homes, lighting lighting design and bespoke kitchens.

2020

London HQ

UK Main office opens opens at Chiswick Park.

2023

Larger Team

Architects, engineers engineers and project project managers join. join.

2026

Two Cities

Turnkey design and build from London and and Cairo.

OUR MISSION

To enrich the way people live, through design that unites creativity, craftsmanship, innovation and technology.

OUR VISION

To be one of the region's most respected luxury design brands — known — known for timeless architecture and interiors that inspire generations. generations.

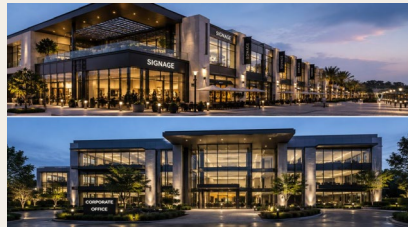

One studio, every discipline

Design, build and technology under one roof — so every detail is resolved by the same team.

Interior Design

Residential and commercial

Architecture

Villas, homes, workplaces

Lighting Design

Layered and architectural

Landscape

Courtyards to estates

Bespoke Furniture

Joinery made to measure

Luxury Kitchens

Designed and installed

Dressing Rooms

Walk-in and fitted

Smart Home

Integrated automation

INTERIOR DESIGN

Bespoke interiors, crafted around you

Villas, apartments, penthouses, offices and commercial spaces — composed to balance sophistication, comfort and function, whether the brief is modern minimalism, classic luxury or a fusion of both.

Residential interiors

Commercial interiors

Space planning

Materials and finishes

Layered lighting schemes

Styling and art curation

LIGHTING DESIGN

Light, treated as architecture

Bespoke lighting plans that reveal form and texture — balancing ambient, task, accent and decorative layers with energy efficiency.

Residential	Living, dining, bedrooms, stairs and gardens
Commercial	Offices, retail, hospitality and showrooms
Architectural	Feature walls, ceilings, façades and pools
Smart	Scenes, sensors, dimming and voice control

Buildings for living, working and hospitality

Residential

Custom homes, villas and luxury apartments, plus extensions and renovations that respect a property's character.

Commercial

Retail, restaurants and cafés, hotels, showrooms and mixed-use buildings designed to perform.

Workplace

Headquarters, executive suites, meeting and reception areas that express a company's identity.

Outdoor rooms for every season

Villa gardens, courtyards, rooftop terraces and estates — landscapes that extend the home, add value and sit naturally in their setting.

-
- i **Site assessment** — vision, layout, sunlight, drainage and existing planting.
 - ii **Concept design** — mood boards, layouts, materials and planting ideas.
 - iii **Detailed planning** — paths, lighting, irrigation, water features and structures.
-

FURNITURE & KITCHENS

Made to measure, built to last

Custom furniture, joinery and luxury kitchens, designed and installed by one team — from 3D visualisation and material selection to manufacture, installation and final styling.

Premium European materials

Precision craftsmanship

Intelligent storage

Integrated appliances

Transparent management

On-time installation

DRESSING ROOMS

A private boutique at home

Walk-in closets and fitted wardrobe systems tailored to your space, collection and routine — organised piece by piece.

Fully bespoke layouts

Integrated LED lighting

Luxury materials and hardware

3D design visualisation

SMART HOME

Technology that disappears into design

Light & climate	Intelligent lighting, thermostats and energy monitoring
Security	Cameras, smart locks, video doorbells, leak and smoke detection
Comfort	Motorised curtains and blinds, motion and occupancy sensors
Entertainment	Multi-room audio and home cinema automation
Control	Voice assistants, remote mobile access, garage and irrigation

Six stages, one accountable team

01

Consultation & discovery

Your vision, lifestyle, requirements and project goals.

02

Concept development

Mood boards, palettes, materials, layouts and 3D visualisation.

03

Detailed design

Technical drawings, specifications, lighting plans and joinery details.

04

Procurement & coordination

Premium materials sourced; suppliers and contractors coordinated.

05

Installation & styling

Site supervision through to curated final styling.

06

Aftercare & warranty

12–24 months on works, devices and appliances.
